

MK, Better (ft. Teddy Swims, BURNS)

Oh I found you
Maybe I'm not
Lost forever
Out in the dark
The storm is over
You made it stop
I've come to find
You're what I want
So laugh about it
My tears are dry
No doubt about it
I'll be alright
Past behind me
I'm letting go
And all I know

It's gonna be better
It's gonna be better
As long as we're together I
t's gonna be better
It's gonna be better now

As long as we're together
It's gonna be better
It's gonna be better now

I see the future
It's looking bright
I'm falling to ya
Like paradise
The world looks different
Inside your eyes
What I was missing
Is here tonight
So I laugh about it
My tears are dry
No doubt about it
I'll be alright
My past behind me
I'm letting go
And all I know now

It's gonna be better
It's gonna be better
As long as we're together
It's gonna be better
It's gonna be better now

As long as we're together
It's gonna be better
It's gonna be better now

It's gonna be better now
