

# Mnemonic, Jack Vegas

Flash my face  
No intro needed  
My self-awareness  
Has not been mistreated  
Ten times the fire  
On a blackened sky  
I won't break my in  
A selfish try just to  
Create my ideal picture  
Sex is free and  
My check's nine figures  
The gold on my teeth  
Draw the attention  
Away from my suit  
Pure velvet body suspension

You know who I am

Jack's the name  
Style in a frame  
My ego is fit and  
My account the same  
Shelby GT, black eyes  
Behind shades  
I get out of bed as the  
Daylight fades on me

I will knock you out  
By sheer appearance  
Blinded by grace  
You know me  
Sharpened moves  
To clear interference  
You know my face  
Yeah you know me

You know  
I feel your eyes on me  
I know you're watching me  
Who I am  
I know it's hard to say  
Want to be me in every way

There's nothing wrong  
With the things I do  
I only do them because  
You want me to  
Ignorant  
The things I do despise  
What you don't understand  
I'm beyond life and you

I will knock you out  
By sheer appearance  
Blinded by grace  
You know me  
Sharpened moves  
To clear interference  
You know my face  
Yeah you know me
