

Mnemic, Pigfuck

Wrap your cold blooded
Arms around my neck.
Embrace this body,
Like I'm the one
Your words crawl beneath my skin
Layer by layer piercing me within

Scraping my walls,
Truthfully exploding (within my heart)

Your mouth covered in filth
Of a thousand eyes
(That kept watching you dissipate)
The liquid from their minds
(The liquid from their minds)

Pigfuck!
Pigfuck!

Memories burning in my mind
I don't want to remember (to remember)
Memories burning in my mind
I don't want to remember

Look into your soul
And you will know.
Within this blackened heart
The worms make you the one.
Strip them, shave and suck,
I am no longer able to interact
Unable to interact
(Unable to interact)

Memories deleted from
My memory storage.

Memories burning in my mind
I don't want to remember (to remember)
Memories burning in my mind
I don't want to remember
To remember

Pigfuck!
