

MØ, Live to Survive

Been down the valley of regret
I swam in the river
I reached for peace I couldn't get
'cause somebody said it would be there

Nights of messed up Energy
Though you'd be the last of me, baby

I live to survive another heartache
I live tu survive another mistake
I live to survive another heartache
I live tu survive
I live to survive another heartache
I live tu survive another mistake
I live to survive another heartache
I live tu survive

You cling to lies and cal lit truth
It's so deep in your nature
You dragger me down
That hole with you
So now you can stay here

Love sur eis a mystery
But you won't be the last of me, baby

I live to survive another heartache
I live tu survive another mistake
I live to survive another heartache
I live tu survive
I live to survive another heartache
I live tu survive another mistake
I live to survive another heartache
I live tu survive
