# Mo Thugs And Family, This Ain't Living

#### **MO THUGS**

Yeah, what's happening my peoples
That's how we're struggling
Yeah, I know it's hard out here man
But ain't nobody said it was gonna be easy
You know what I mean?
Together we stand
That's how we're struggling
Divided we fall
What's happenin ya'll?
What's crackin?

Ain't nothing changed since I was a kid Nothing but the days, months and the years Putting it down and keeping it serious Trying to keep from shedding these tears You would have thought that it would have got better Making that rapping and doing these shows But to me it only got worse Close to (?) nobody knows The real steam, the reason why, I do the things that I do Getting so high, drinking these brews Feeling like I've got nothing to lose I payed my dues and the Lord blessed me But now I pray to save my mother, and my brother Lord please help me Heavy loads should be for heavy people But niggas just trying to provide for their family Facing cops and evil And we need our higher powers So what I'm going to do is keep my prayers to the sky for you Won't tell no lie for you, but nigga I'm willing to die for you Undivided, reunited With the fist in the pyramid Right about now I'm about to tip my lid Somebody tell me what this is A dream, a reality, my sanity about to give in Got the fame and the fortune but this ain't living

## (Chorus)

This ain't livin', but it's the only thing I know This ain't livin', I've got to find a higher road This ain't livin', but it's the only thing I know This ain't livin', I've got to find a higher road

From the past, the present through, I'm talking about the struggle The shit hit me so hard I be swearing I'm seeing devils Sometimes it makes me wonder how I hold and maintain No matter which direction always seems against the grain What to do, what to do? I'm praying for solution In the course that I be kicking have me in a institution Trying to rid this life, of one I didn't chose How you gonna fuck me, I payed my dues Every minute of my life I be trying to focus Just when I think I got it someone make me know it Ain't the way I need to be And my eyes way heavy but I keep on pushing 'cause I ain't livin' for nothing

### (Chorus)

On a quest for peace, on a quest for peace But I can't escape these wicked streets Got me to realise that I could jeopardize A chance for my kids to be What they wanna be and what they could be And I ain't trying to be that hoody But I wish somebody understood me so they could see the good in me Trying to do thangs to make the world better And everybody hittin' me to be doing what I'm doing Strickly out here chasin this cheddar Ain't nothin' free ain't nothin' fair to me So all in all it's only me Take care of me and you should be doing the same thang My niggas complain' Trying to do to much explainin' When the key is really maintainin' Waitin' for the Lord to stop the rainin' Playing it safe we got to check ourselves Before we wreck ourselves First we got to respect ourselves 'Cause a nigga won't give us nothin' else ( .. ? .. ) death Go and get off your thang I'm a see a change when you make a change I believe I know the game Enduring our pain cuz you got to take it And if you want it you'll make it See the drama and shake it

## (Chorus)

Get your mind right

He's on drugs 'cause he's unhealthy
Family's splitting up 'cause they're struggling
Somebody out there, don't you feel the need?
Feeling hopeless 'cause I'm in (?slowly?)
I'm lookin' for a better day
I be praying for a better day
I've been lookin' for a better way

(Chorus)
