

MØ, Wheelspin (MO)

Wheelspin all night
Flashes of your eyes spinnin' in my mind
(Spinnin' in my mind) Wheelspin all night
Someday I will find my way back to you
From the other side
Baby, my truck is on fire
Fire, I let that shit burn
It's easier than to clean up
Say stop or make a turn (ooh-ooh-ooh)
Watch me fly away
Drift into another dimension with my splendid pace (ooh-ooh-ooh)
But I miss you, babe
Swayin' in the window on a summer's day
Wheelspin all night
Flashes of your eyes spinnin' in my mind
(Spinnin' in my mind) wheelspin all night
Someday I will find my way back to you
From the other side
Baby, my float is on fire
Buy her a drink sweet and strong (like my drink sweet and strong)
I'd say I'm livin' life golden
Some say I'm livin' wrong (ooh-ooh-ooh)
Yeah, I choose my way
But I've forgotten what it was that I set out to chase (ooh-ooh-ooh)
Hope it's not too late
To get back in orbit and kiss your face (kiss your face)
Wheelspin all night
Flashes of your eyes spinnin' in my mind
Wheelspin all night
Someday I will find my way back to you
From the other side (from the other side)
Spin all night
Flashes of your eyes spinnin' in my mind
(Spinnin' in my mind) wheelspin all night
Someday I will find my way back to you
From the other side
When everything is said and done will we stay under the sun?
(Oh-oh-oh-oh)
Or will I take my aching bones to an exit, going home?
Baby, my truck is on fire
Fire, I let that shit burn
