

# Mob Rules, Hold On

Underneath the surface  
Beyond the human skin  
There's a certain feel of hunger  
A scream from deep within

I never reached the higher grounds  
I always failed the time  
Just tried to get the inner strength of mine

Hold on and try to fly  
Hold on like wings in the sky  
Hold on we tried to fly  
So hold on

All the dreams are over  
In the black hole of the sun  
The seed of our madness  
Took my soul and made me run

The moment when a child is born  
The miracle of life  
Is stronger than the shadows of the night

Hold on and try to fly  
Hold on like wings in the sky  
Hold on we tried to fly  
So hold on
