

Mob Rules, Outer Space

I see a new day's dawning
And I hear the keeper's call
I take it as a warning
And awake them all

Listen to the church bells
See the clouds are getting dark
There's lightning up in heaven
When hell will rule your destiny

Between all the lines
We learn from the stars

The signs came from outer space
And lit up the sky
It's more than a dream escape
The ground's burning high

Will I see the wizard
As he rumbles in the air?
Can I feel his heartbeat
As the storm comes near

His face is full of hatred
And the eyes are burning red
His voice is shouting anger
Against all sins in history

Between all the lines
We learn from the stars

The signs came from outer space
And lit up the sky
It's more than a dream escape
The ground's burning high

When black rain is falling
And heaven is calling
To judge our faults

The signs came from outer space
And lit up the sky
It's more than a dream escape
The ground's burning high
