Mobb Deep, There I Go Again

(feat. Ronald Isley)

(Ronald Isley singing throughout song)

(Prodigy and Havoc talking) Yeah yeah

Know what I'm sayin' Straight burn biscuits baby

Yeah, give it to 'em raw uncut

Turn them headphones up

No doubt son

No problem

Creepin' it though baby

It's gangsta

The truth gonna come to the level

(Havoc)

Ýο

As this blood flow through my veins

I stand before this mic with a stepped up game

Some things when I look how they never gonna change

It ain't a thing

Niggas wild

Then I'm cockin' that thing

Cuz you know with every action there's a reaction

And there's no known cure when I'm sick with the clappin'

How many times it have to happen

Niggas talkin' like they generals

They just mere captains

The streets there's rules

Slugs hit 'emwith infractions

And then there's Hollywood if you want some fuckin' acting

You got these niggas out mis-representin' they hood

Give 'em heart now they icin'

I'm like nigga what's good?

Cuz you know how I get with these macks and these techs

Blaze 'em down gives a fuck about the next nigga rep

Play around find yourself getting' cheated by death

Man gone and believe me dog it happened to the best

(Chorus)

You know a nigga

I be tryin' to chill

But now then I'ma hafta run these niggas a drill (no doubt)

Ther comes a time in

Every nigga life when he's face to face with that ole'

Kill or be killed

And here I go again

Grabbin' my steel

Cuz now then I'ma hafta run these niggas a drill (run 'em)

There come a time in

Ever nigga life when he's face to face with that ole'

Kill or be killed

(Prodigy)

Ay yo

Don't make me have to body something

Fuck you and what you known for

To me you're nothin'

I don't see why in the world

To me you frontin'

And if you was that nigga

Then you still mean nothing

Homes (what)

My gun is bustin'

Fuck all y'all niggas my stomach is touchin'

And I be right there on Murdle Ave.

Come through

You bitch ass niggas wouldn't know what to do

I get bullet proof love

Pounds and hugs

You get extorted by the thugs that gew up in your hood

You get killed fuckin' with P

You really should

Not do that

I use that

Lugar good

Catch a bad one

Ran dunn raggity

You got fucked up and left for dead in the street

(Havoc)

Ýο

Who wants it with Hav

Who want it with P

Not near one of y'all

And I put that on me

But if?

(Chorus)

(Havoc)

Yo

Believe me dog there's more than

Cockin' and squeezin' and

Afterward that nigga still be breathin' and

Who gonna snitch if you lucky to leave it then

For a reward nigga just might turn you in

I take it further and I might just murder him

That mouthpiece all together

I'm curbin' him

It's very clear and there's nothin' to blur my lens

It's very real

Ain't got no time to pretend

(Prodigy)

Ŷο

Feelin' it thugs

I dump a magazine on you dunn

I'll run up on you niggas with the ?master? glove

Dunn there's nothin' for me to snap and get on tilt

I know it's nothin' for you

The pain to have me killed

I respect the laws of war and love

I live by them shits

Y'all niggas not ready for this

You not knowin' how you about to get your head crushed

Spray it dunn

Straight out

Shit it when them guns come out

(Chorus x2)

(Ron Isley singing)

(Woman singing x6)

We've got to learn to swallow our pride

It's hard just to let things ride

Maybe one day things will change

A	As of right n	ow let me sh	now you so	mething
