

# Mobile, Lovedrug

I gotta feel so tired  
I got my head so tight  
I gotta know what's right  
I got my hands untied  
I got a fever so high  
I got a real sore side  
The Heaven's dusty white  
I gotta feel so high

Turn away while I celebrate  
Will you tolerate while I waste the day away?  
Suffocate when you keep me straight  
Torture everyone and I don't feel guilty comin' down

I kinda feel so light  
I kinda feel so right  
I gotta know how high  
The day becomes night  
I got a fever so high  
I got a real sore side  
The Heaven's dusty white  
I gotta feel so high

Celebrate like a holiday  
As I violate all the rules I thought I made  
Suffocate while you keep me straight  
Will you keep me safe?  
I thought I lose myself under your control

Aldous just you turn the lights out  
Everyone's around

Beautiful lies just walked into my life  
Honestly I'll let it go

Celebrate like a holiday  
As I violate all the rules I thought I made  
Heaven's gate drownin' in the wave  
Lying in the wake  
I thought I'd lose myself in you, in you  
I thought I'd lose myself under your control
