

# Mobile, New York Minute

Feelin better now,  
You must be only waitin' for something  
And there is no way out,  
You must be out there lookin' for nothing  
Holdin' up can't you please  
Come back down nowhere near  
Can't back out can't you see  
You got the best but you gotta believe

Hey, hey now the New York minute can't last forever  
Hey now, we hurt each other more than ever  
Hey now...

Feelin' better now  
But I just can't get it together  
And it wears her out  
She must be out there lookin' for something  
Don't go now don't you please  
Come back down somewhere near  
Break me out let me bleed  
Got the best but I gotta believe

Hey, hey now the New York minute can't last forever  
Hey now, we hurt each other more than ever  
Hey now, keep this in the past forever  
Hey now...

Hey, hey now the New York minute can't last forever  
Hey now, we hurt each other more than ever  
Hey now, keep this in the past forever  
I know it, I know more than ever we live in two worlds apart  
I don't wanna wake if it's over we live in two worlds apart  
Hey now...
