

Mobile, Sweet Light

Anytime you come around,
Come on at my door.
Step inside and see that I only need you more.
Only need you more

Sweet light, shine on me now, shine on me now.
Sweet light, shine on these endless nights of cold.

Help me break this war of mine,
I think I am getting close.
Would you trade your heart for mine,
And let me take control?
Help me break this war of mine,
I think I am getting close.
I think I am getting close.

Sweet light, shine on me now, shine on me now.
Sweet light, shine on these endless nights of cold.

Let me take control
Let me take control
Let me take control
Let me take control

Sweet light, shine on me now, shine on me now.
Sweet light, shine on these endless nights of cold.
