

# Moby, Angels Sing

I close my eyes  
And feel the morning rain  
Covering my face  
I think of you again  
About the the time  
When you were here  
The city it felt so bright  
The city felt so clear

Oh, we could of made the angels sing  
Now I can do anything  
I can do anything  
Oh, we could of made the angels sing  
Now I can do anything  
I can do anything

The time for us  
We were always high  
I would move beneath your wings  
You could make me feel alive  
And what we had  
It felt so strong  
But now I'm here all alone  
Tell me, what did I do wrong?

Oh, we could of made the angels sing  
Now I can do anything  
I can do anything  
Oh, we could of made the angels sing  
Now I can do anything  
I can do anything
