Moby, Beautiful

Come on baby Come on girl Come on baby Come on girl

I love you baby I love you now I love you baby I love you now

Look at us, were beautiful All the people push and pull But let's just go out and ride Talk about the things we try

Look at us, were beautiful All the people push and pull but they'll never get inside We've got too much to hide

Come on baby Come on girl Come on baby Come on girl

I love you baby I love you now I love you baby I love you now

Look at us, we're beautiful
All the people push and pull but
let's just go out and ride
Talk about the things we try

Look at us, we're beautiful All the people push and pull but they'll never get inside We've got too much to hide

Look at us, we're beautiful All the people push and pull but let's just go out and ride Talk about the things we try

Look at us, we're beautiful All the people push and pull but they'll never get inside We've got too much to hide

Look at us we're beautiful [16x]
