

Moby, Dream About Me

Babe
Dream about me
Lie
On the phone to me

Tell me no truth
If it hurts bad
There's enough in my life
To make me so sad

Just dream about
Colour fills our lives
Just dream about
Some one else tonight

Babe
Oh, dream about me
On the phone
You're talking quietly

I wanna be yours
I want you be mine
A red skives
For long time

So dream about us
When you're alone
Just dream about
How I will let go

Hand
Hand

Babe
Oh, dream about me
Lie
On the phone to me

Tell me no truth
If it hurts bad
There's enough in my life
To make me so sad

Just dream about
Colour fills our lives
Just dream about
Some one else tonight

Just dream about
Colour fills our song
Just dream about
How I will let go
