

Moby, Ooh Yeah

Ooh Yeah

In the words, can you feel my love?
Everyone's resting, disco time, woah.
Like you're flying through the night in your disco light.

Walking down the steet at night.
The whole world just comes alight, woah.
Moving through the air and you have no cares.

The whole world can fall apart.
Everybody likes you in the dark, woah.
Moving in the colored lights and it feels so right.

All the world's gonna fall in line.
Everybody else will come in time. woah.
Like a feeling through the floor, but it's so much more.
