

Mocca, I Think I'm In Love

If you got an eerie feeling after hanging up the phone
Sort of happy feeling but you're not sure what it's called

If you're haunted by his face whenever you're asleep at night
And think you hear his silly voice just calling out your name

Reff:

Oh ,no! I think I'm in love with you..
Oh, no! I'm hoping you'll want me too
So, please..don't let me down!

Just can't help but talk about him in every conversation
Till your friends are sick and tired of that same old crap

If you start wearing make up even when you go to bed
Crying like a baby when you hear a mellow song
