

# Modern Day Zero, Smother Me

I never really meant to be  
So cold  
When it came right down to being  
Alone  
I never thought that you would be  
So low  
You could scrape the dirt right from my feet  
I know  
That the situation can't go on too long  
And I can't hold on

You smother me  
And I'm left crawling  
All defenses  
Seem to fail me  
You smother me  
To keep me crawling  
Away

I never thought that you would be  
So cold  
When it came right down to being alone  
I know  
That the situation can't go on too long  
And I can't hold on

(Chorus)

What would you do what would you do if I smothered you

(Chorus)
