

Modern English, Blue Waves

Is it something in the water
Did it fall from out the sky
I've never known a feeling like it
I wonder why

I've got the power to stop the race
That way I'm winning and it helps me through the night
It means so much for me to
I've got the power to stop the race

Why do I feel so peculiar
Do I look a little strange
Who's that smiling in the mirror, it's me

Hey there what's your name
I feel that I should talk to you
Hey there what's your name
I've never seen the sky so blue
