

Modern English, Breaking Away

Long days and stormy weather
The same old road today
There's only one way up or down
Be free was all they said to me
And now I'm breathing in again
Breaking away run run run away

Just here and gone another day
Nothing much to say
There's only one way in or out
Be free was all they said to me

And now I'm breathing in again

Here it comes again for all to see
Make way for old hypocrisy
There's only way right or wrong
Be free was how you're meant to be
And now I'm breathing again

You know it (x4)

Breaking away (run run run away)
