## Modern English, Breaking Away

Long days and stormy weather The same old road today There's only one way up or down Be free was all they said to me And now I'm breathing in again Breaking away run run run away

Just here and gone another day Nothing much to say There's only one way in or out Be free was all they said to me

And now I'm breathing in again

Here it comes again for all to see Make way for old hypocrisy There's only way right or wrong Be free was how you're meant to be And now I'm breathing again

You know it (x4)

Breaking away (run run run away)
