

Modern English, Chapter 12

Have you seen the book today
It's full of lies again
Your name stands out so clear
The signature is there
It's always true
This book they write for you

They'll never let you be yourself today

Have you seen the book today
It'll be the same tomorrow
Yesterday I stole a look
It always seems the same
It's always true
This book they write for you

They'll never let you be yourself today

The page they're on is never clear
Teaching all the way
Chapter 12 is quite sincere
Even though it's yesterday

It's always true
It's always true
It's always true
This book they write for you
It's always true
This book they write for you

They'll never let you be yourself today
