

Modern English, You're Too Much

In you I've found,
The love I dive to drown,
With the lips that are so hard to please,
You are my only remedy,

(Chorus)

You're too much and I like it,
You're too much and I need it,
Let's stay this way for a while,
Watch the world go round again.

You're too much.

Across your face,
The thoughts I'd like to taste,
When two minds meet and act as one,
This life I'd like to lead.

Chorus

You're too much x3

*

Watching, waiting, Anticipating,
The way you touch just leaves me shaking,
When you get so close to me,
You are my only remedy.

Take me high x2

It goes round again x2

Let's stay this way for a while,
Watch the world go round again.

This is how I want to feel,
Only Heaven knows.

Take me high x2
(back to* to fade out)
