

# Modern Talking, America

On monday morning, oceanrain was falling  
And tuesday morning, many friends are calling  
Wednesday alone, staying at home  
Thursday, oh I wait for you  
And friday it's only one day  
The weekend is coming soon

America - oh it's saturday night  
America - lazer beams, and lights  
America - people feel alright  
America - let the party begin  
America - oh it's like a dream  
America - let's have some fun tonight

On monday morning, my heart feels like fire  
On tuesday evening, I can feel desire  
Wednesday I'm down, spinning around  
Thursday love is in my eyes  
On friday, it's only one day to my paradise

I just can't wait til Saturday  
I just can't wait cause it's my day  
I just can't, I just can't wait
