

Modern Talking, Blue Eyed Coulored Girl

It's 5 o'clock, I think of you
Live my life without you, and I' feeling blue
I told you lies, love fades away
Oh i loved you baby but I didn't say
It's 5 o'clock, a lonely night
And I just remember we were side by side
I made mistakes, you went away
And now I know the words, that I didn't say

How can I fall (fall) in love (in love)
With a blue eyed coloured baby girl
How can you tell me, just tell me, it's forever, oh no
How can I fall in love
With the girl with the golden hair
How can you tell me, we can't be together, oh no

The night is gone, I couldn't sleep
I saw the old videos, I'll always keep
Day in day out, I'm missing you
Is there just a little chance, what can I do?
The night is gone, I watched a star
Oh I have to face the future, you're so far
Some lies are true!
Can we stay friends,
Tell me baby when will I see you again
