

Modern Talking, Higher then heaven

She's cool as ice - I'm hypnotized
My heart is crying just for more
No guarantee - she stays with me
She's my dream - I can't ignore
How can I just explain to her
That she's my baby, oh i swear
How can I just explain my love
Oh I am: higher than heaven (higher than heaven)
In the middle of the night (of the night)
Feeling like the geatest lover (greatest lover)
And I need you by my side
Oh, one two three, lovers live longer
Oh, can't you see, love makes me stronger
Oh, A B C, be my girl tonight
I'm specialized - in lonely eyes
I can't explain - the way I feel
Night after night - the stars shine bright
You're my baby, oh it's real
How can I just explain to you
Tell me what have I got to do
How can I just explain my love
