

Modern Talking, Juliet

Oh I walked through the party in the disco light
Saturday is calling, and I'm feeling alright
And I get, tired of, being alone
She has my heart, but she has no home
And I tried and tried tried it again
Buy her a drink, wanna be her man
Heijo - oh high and low
Oh my baby - come lets go

Oh Ju - Juliet, all the things you do,
They drive me mad
Ju - ju - ju - ju - Juliet
Baby I can't get you out of my head

I love the nightlife, the crazy nightlife
In the disco light baby
I love the nightlife, the crazy nightlife
Oh keep oh dancing, lady

And we walked to my house it was late at night
Sunday was calling, see the morning light
And I get tired of to being with this girl
She's so complicated, doesn't fit in my world
And I try and try to send her home
Called her a taxi, wanna be alone
Heijo - oh high and low
Oh my baby - please go

Oh Ju - Juliet, all the things you do,
They drive me mad
Ju - ju - ju - ju - juliet
Baby how I get you out of my bed
