

Modern Talking, Night To Remember

A night to remember
You changed all my life
And we reached the sky
Maybe I should run and hide
And forget the time we had
But how can I just forget
That we ever met before
I'm gonna move any mountains
If you want me to do
I'm gonna prove I can move any mountains
As long as I am with you

We shared a night to remember
And we reached the sky
Just a night to remember
I've got you and you changed all my life
You changed all my life

I know what I have been through
What I felt so deep inside
So real it is destiny
To be with you every night
I'm gonna move any mountains
If you want me to do
I'm gonna prove I can move any mountains
As long as I am with you

We shared a night to remember
And we reached the sky
Just a night to remember
I've got you and you changed all my life
You changed all my life

I found the love of my lifetime
We shared a night to remember
We reached the sky
