

Modern Talking, Summer In December

Yo, yo, I wanna be close to you

Anytime that you go,
Girl I'm gonna miss you so
I wanna be close to you, close to you
With my head in the clouds
Oh my heart is crying loud
Oh I wanna be close to you, close to you
And I know, you are my angel
But angel are not flying low
And I know, oh you are my angel
And I'll never let you go

A summer in december
Love we just remember
A summerlove in winter
I always will remember

And the way you look tonight,
Make the stars shine bright
I wanna be close to you, close to you
Every step on my way, every word I will say
I wanna be close to you, close to you
And for me, it was like heaven
Everything will turn out fine
And for me, it's like a heaven
Baby give it some more time
