

Modest Mouse, Spitting Venom

We were spitting venom at most everyone we know
If the damned gave us a road map then we'd know just where to go
Now let it drop

Let it all drop
Let it all drop
Oh let it all fall off

Well you were talking soda pop
You talk it quite a lot
The opinions that I do not give
The opinions I ain't got
So let it drop

Let it all drop
Let it all drop
Let it all fall off there oh

Well you were spitting venom at most everyone you know
If you truly knew the gravity you'd know which way to go
Well let it drop

Let it all drop
Let it all drop
Oh let it all fall off

My ears were pressing firmly right against your mouth to hear
When you tried to spit the venom out your words were not so clear
Now drop

Hold on to what you need
We've got a knack for fucked up history
Hold on to what you need
We've got a knack for messed up history

Well we went downtown, and we sat in the rain
Both looking for direction and waiting for a train and thought over
It's all over

I don't know who kept track; I didn't know there was a score
Well it looks like you're the winner and I ain't gonna play no more
It's over
Game over

Well we walked real stiff and I came inside the ground
You hit me with yours
And said, "Pull yourself together"
It's over
Oh it's over

You can say what you want but don't act like you care
It takes more than one person to decide what's fair
It's over
Think it over

You were spitting venom at most everyone you know
If the damned gave you a road map then you'd know just where to go
So we carried all the groceries in while hauling out the trash
And if this doesn't make us motionless I do not know what can
So who's to say what a rotten thing to say such an awful thing to say
I didn't mean to bite you so red
Well I always did what I always did what I always had to sling
So let it drop

Let it all drop
Let it all drop
Oh let it all fall off

Let it drop
Let it all drop
Let it drop
Oh let it all fall off

Cheer up baby, it wasn't always quite so bad
For every bit of venom that came out the antidote was had
Cheer up baby, it wasn't always quite so bad
For every bit of venom that came out the antidote was had
Cheer up baby, it wasn't really always quite so bad
For every bit of venom that came out the antidote was had
Cheer up baby, it wasn't always quite so bad
For every bit of venom that came out the antidote was had
Cheer up baby, it wasn't really always quite so bad
For every bit of venom that came out the antidote was had
Cheer up baby, it wasn't really always quite so bad
For every bit of venom that came out the antidote was had
Cheer up baby, it wasn't always quite so bad
For every bit of venom that came out the antidote was had

Cheer up

Cheer up baby, it wasn't really always quite so bad
For every bit of venom that came out the antidote was had
Cheer up baby, it wasn't always quite so bad
For every bit of venom that came out the antidote was had
Cheer up baby, it wasn't always quite so bad
For every bit of venom that came out the antidote was had
Cheer up baby, it wasn't always quite so bad
For every bit of venom that came out the antidote was had
Cheer up baby, it wasn't always quite so bad
For every bit of venom that came out the antidote was had
Cheer up baby, it wasn't always quite so bad
For every bit of venom that came out the antidote was had
Cheer up baby, it wasn't always quite so bad
For every bit of venom that came out the antidote was had
