

Modestep, Another Day (ft. Popeska)

Tomorrow is another day

No worries, no troubles
Erase your mind and find a way
Keep smiling, keep fighting
Live for each moment and day
While we're rising
Life's been compromising
So just live for the moment and save
All your worries for another time
Cause tomorrow is another day

Cause tomorrow is another day

All your worries leave your side
Free your mind
Cause tomorrow is another day
When you feel like moving on
Just stay strong
Cause tomorrow is another day

All your worries leave your side
Free your mind
Cause tomorrow is another day
When you feel like moving on
Just stay strong
Cause tomorrow is another day

Cause tomorrow is another day
Cause tomorrow is another day
Cause tomorrow is another day
Cause tomorrow is another day

Tomorrow is another day

No worries, no troubles
Erase your mind and find a way
Keep smiling, keep fighting
Live for each moment and day
While we're rising
Life's been compromising
So just live for the moment and save
All your worries for another time
Cause tomorrow is another day

All your worries leave your side
Free your mind
Cause tomorrow is another day
When you feel like moving on
Just stay strong
Cause tomorrow is another day

All your worries leave your side
Free your mind
Cause tomorrow is another day
When you feel like moving on
Just stay strong
Cause tomorrow is another day

Cause tomorrow is another day
Cause tomorrow is another day
Cause tomorrow is another day
