

Modwheelmood, Trapped In Me

We've been through this
I need a kiss
Used to be a gift from outer space
And once again (lil darling)
I'll be the rain
Even though I hate to feel this way
Regress

Suddenly I realize today
Tomorrow is just another day
Away run
You're trapped in me

And once again
I feel depressed
Something more that I
I need to grasp
It's what it is
No time for this
If I go will you be near at all?
At all?

Suddenly I realize today
Tomorrow is just another day
Away run
You're trapped in me
