

Moe Bandy, Big Flicking Baby

Like old Dr Pepper sometimes she's misunderstood
And like the Pernal's Chicken boys she's fingelicking good
She knows when I need her and she's always super quit
When I reach to light a cigarette she's there to flick my big

She's my big flicking baby and I want the world to know
That my big flicking baby's with me everywhere I go
I've tried Betty Sue and Mary Lou and I've always got my kicks
But they can't hold a light to baby when it comes to flicking bigs
(guitar)

She's my had a call my jerry tall my pepper upper too
Anytime it's smoking time she knows just what to do
She's built like Dolly Parton there's no problem she can't lit
Without fell went I in hell she's there to flick my big

She's my big flicking baby...
But they can't hold a light to baby when it comes to flicking bigs
