

Moe Bandy, Four Letter Fool

I had everything in my favor under God's blue sky
Your good love and a baby girl homemade apple pie
A dog a cat two cars and a boat a home and a piece of land
And plain old ordinary everyday ends I had the world in my hands

Just a few forbidden pleasures can destroy a lifetime thing
Once it's gone you can't rebuild love with shattered dreams
It was happening all around us and it happened to me and you
And plain old ordinary everyday ends I was nothing but a four letter fool

You used to call me honey and remembering makes me cry
I never meant to hurt you and it makes me wanna die
Your heart just won't forgive me but I can't stop loving you
And plain old ordinary everyday ends I ain't nothing but a four letter fool
And plain old ordinary everyday ends I ain't nothing but a four letter fool
