

# Moe Bandy, Love Is What Life's All About

(Love is what life's all about)

I've climbed the mountain and looked down on valleys below  
I've been everywhere and I've tried everything  
So I think that I ought to know  
I've sampled the bitter and tasted the sweet  
I've turned this ole world inside out  
And when it comes down to the bottom line boys  
Love is what life's all about

Love is what life's all about  
Just thinking of holding my woman and loving her  
Makes my ol' heart moan and shout  
Money's a good thing to have in your pocket no doubt  
But all the men's money can't buy a good woman  
Love is what life's all about  
( fiddle )  
I placed my feet between soft satin sheets all alone  
You can believe that I'd rather sleep in a haystack with a love of my own  
I been cold and hungry I been without fun the one thing I'm never without  
Is someone to hold me someone to care cause love is what life's all about

Love is what life's all about...  
All the men's money can't buy a good woman love is what life's all about
