

Moe Bandy, Used To Now I've Wanted Everything

Up till now I've wanted everything but you

Well it's happened I finally got what I've been asking for
I know you're leaving I can tell by the way you slammed the door
It's over and I'm asking me what can I do
Up till now I've wanted everything but you

Up till now I've wanted everything but what I had
Should have made the best of loving you and just bein' glad
But it's just like me who want my share in someone else's too
Up till now I've wanted everything but you
(guitar + steel)

Here I sat with the picture I've seen a thousand times
And the face looks like a stranger to my tortured mind
It seems I've spent the past few years never knowing you
Up to now I've wanted everything but you

Up till now I've wanted everything...
