

Moe., Faker

Wastin' away, sittin' around
Time on my hands, leaves on the ground
Been showed the way, hinted around
Never was certain, and I've never been found

I am a faker, pretending along
Lost site of my maker
I will die before I finish this song

Been showed the way, hinted around
Never was certain, and I've never been found
Fakin' away, pretendin' around
Rain's in that bucket, and there's dust on the ground

I am a faker, pretending along
Lost site of my maker
I will die before I finish this song

Slippin' away, waitin' around
Words in my brain, words make a sound
Been showed the way, hinted around
Never was certain, and I've never been found
Trippin' away, slidin' around
Out in the rain, drops make a sound
Fakin' away, pretendin' around
The joke's on you, get your jaw off the ground

I am a faker, pretending along
Lost site of my maker
I will die before I finish this song

I am a faker, I am a faker
I am a faker, I am a faker
I am a faker, I am a faker
