

Moe., Understand

You've been talkin' back and forth in rhymes, you don't listen
Doesn't matter what I say

On your way...Gone
One too many days

You've been walkin' back and forth it's time that your missin'
Gets more pathetic every day

On your way...Gone
One too many days

Yeah I'll rue the day, when the day would come to you, wonder who's that man?
You look at you and notice that you and me have the same hands
These hands, your hands, they are my hands, they are our hands...Understand
Well I hope we never go there...Understand

You've been lying in and out of the sunlight
Time and seasons sleeping on the floor

On your way...Gone
One too many days

You've been driving up and down the countryside
Rhyme and reason just flew out the door

On your way...Gone
One too many days

Yeah I'll rue the day, when the day would come to you, wonder who's that man?
You look at you and notice that you and me have the same hands
These hands, your hands, they are my hands, they are our hands...Understand
Well I hope we never go there...Understand

You've been talkin' back and forth in rhymes, you don't listen
Doesn't matter what I say

On your way...Gone
One too many days

Yeah I'll rue the day, when the day would come to you, wonder who's that man?
You look at you and notice that you and me have the same hands
These hands, your hands, they are my hands, they are our hands...Understand
Well I hope we never go there...Understand
I hope we never go there...Understand
I hope we never go there...Understand
I hope we never go there...Understand
