

# Moe., Where Does The Time Go?

The times that are best  
When moments that pass  
One after another  
You notice your thoughts  
As they grow in the evening time  
Just like clingin' vines  
You hold them all close  
So they can't run away  
And leave you wonderin'  
The times that are best  
When moments they pass  
One after another

Here we are (here we are)  
Home at last (home at last)  
Where did it start and where will it finish?  
Home again (home again)  
Jiggedy jig  
Where does the time go?

Livin' in space  
Is all fine and good  
If you're an astronaut  
But life is a dream  
That calculus could never predict  
I lift up my feet  
Everytime I cross those railroad tracks  
I'm not superstitious  
It just reminds me of you

Here we are (here we are)  
Home at last (home at last)  
Where did it start and where will it finish?  
Home again (Home again)  
Lickety split  
Where does the time go?

There was a time  
That passed over us  
Like an airplane's shadow  
You could chase it I guess  
It'll never be quite the same  
I lift up my feet  
Everytime I cross the railroad tracks  
I'm not superstitious  
It just reminds me of you

Here we are (here we are)  
Home at last (home at last)  
Where did it start and where will it finish?  
Home again (home again)  
Jiggedy jig  
Where does the time go?

(JAM)

Here we are (here we are)  
Home at last (home at last)  
Where did it start and where will it finish?  
Home again (home again)  
Jiggedy jig

Here we are (here we are)  
Home at last (home at last)

Round on the ends and high in the middle  
Home again (home again)  
Lickety split  
Where does the time go?  
Where does the time go?
