

Mogwai, R U Still In 2 It

Are you still into it? 'cause I'm still into it.
We haven't had sore bits for about a fortnight.
Am I your only one? 'Cause you're still my only one.
But if you need more, I'll just do it in some, right.

We should go into town and spend some money.
We could go to the pictures and see something funny.
We'd share a popcorn and we can go to the pub at night.
We can get right tanked up and go home and have a fight.

Will you still miss me, when I'm gone?
Is there love there, even when I'm wrong?
Will you still kiss me, if you find out?
I will now leave here but don't follow me.

We could go into town and spend some money.
We could go to the pictures, go and see something funny.
Share a popcorn and when it's finished we could go to the pub at night.
And get really pissed and go home and have a fight.

Will you miss me, when I'm gone?
Is there love there, even when I'm wrong?
Will you still kiss me, if you find out?
I will leave you and I will miss you.
