

Mohair, Thin Air

You know, I know
All I want to be is here
With you, for you
I don't need to disappear

Tell me all you can
About the way I feel
It's all over
All I need to feel this way
Is an ordinary day
Just one in a million

You and I are taking over
High time for a change
It's our time to take forever
Don't you know it's
High time for a change?

You know, I know
All I want to be is here
With you, for you
All I need to disappear
Is an ordinary day
Just one in a million

You and I are taking over
High time for a change
It's our time we'll take forever
High time for a change
We just want to stay together
Don't you know it's
High time for a change?

Taking over
You're one in a million
It's an ordinary day

You and I are taking over
High time for a change
It's our time to take forever
High time for a change
We don't want to burn your hour (???)

You and I are taking over
We don't have time for this
We don't have time
We don't have time
You and I are taking over
We don't have time for this
We don't have time
We don't have time
You and I are taking over
We don't have time for this
We don't have time
