

# Moist, Final Thoughts & The Last Day On Earth

Heaven haunts me kill for a cigarette  
Heaven is all that I got  
My God left me without one word of warning  
My God left me waiting is all that I got  
I've seen your face before  
I've seen your anger crashing down  
All my life I've seen your babies  
Crashing to the ground  
My girl brought me comfort to keep me stable  
Needles paid for comfort is all that I've got

My God left me without one word of warning  
My God left me  
My God is all that I got  
I've seen your face before  
I've seen your anger crashing down  
All my life I've seen your babies  
Crashing to the ground  
Don't be afraid  
We're all afraid
