

Moist, See Touch Feel

See you waiting
For your calling
Inside you died one thousand times
For the mercy
Like a Jesus
Praying for your soul
See the bed now
'Till you've fallen
Oh my baby's fallen down
To the bed now
Oh for mercy
It's easy after all
See you smiling
Why you smiling?
Deep inside you're torn apart
Only mean to touch these lips
It's easy after all
Did you think I'd
Be the virgin
You will never be let down
Come to me just one more time, ohhh
What do you think do you see touch feel inside
Oh my god I'm not alive
Oh oh it's all you left behind
What do you think do you see touch stand aside
Now you know your hands are tied
Oh oh oh oh
Trip and down you go
Why so nervous?
Hard to admit it'd be this hard
Trip and down you go
Catch your breath
It's easy after all
I don't want to
Be the virgin
You would never be let down
Come to me just one more time
What do you think do you see touch feel inside
Oh my god I'm not alive
Oh oh it's all you left behind
What do you think do you see touch stand aside
Now I know your hands are tied
Oh oh oh oh
Can I give you what I need
Oh baby can I give you what I need
Can I give you what I need
Oh baby can I give you what I need in you
What do you think do you see touch feel inside
Oh my god I'm not alive
Oh oh it's all you left behind
What do you think do you see touch stand aside
Now you know your hands are tied
Oh oh oh oh
