

Moist, Sister

She leaves her wings on
The waves
The sweetest voices
Relay
And crucifies me
To change
And still destroys all
The same

Oh sister andalea
Look what you've done to me
Hail sister andalea
Look what you've done to me

And empty angels
We'll be
And empty angels
I weep

Oh sister andalea
Look what you've done to me
Hail sister andalea
Look what you've done to me

I lost the words on
The waves
The sweetest voices
Delay
She crucifies me
To change
And still destroys me
The same

Oh sister andalea
Look what you've done to me
Hail sister andalea
Look what you've done to me
