

Molly Hatchet, Dreams Of Life

Mama had dreams.. but Daddy had plans
I lived on Mama's love but learned from Daddy's hands
They gave me all the freedom to be who I am
Took me from boy to man...

I cherish the day's when they were alive
Mama taught me respect and how to feel inside
Daddy was busy workin' just tryin' to make a dime
He said son you gotta live and learn to survive

Chorus:

I saw a falling star...fall down from the sky
Stars fall for all the loved ones go by
May the dreams of Life be with you
Passed through the hands of time
I never dreamed those hands would be mine.

I was lucky to have her love...

I didn't have much time

I felt the love of my Mama's heart

I just wanted to say goodbye...say goodbye

Chorus:

I saw a falling star...fall down from the sky
Stars fall for all the loved ones go by
May the dreams of Life be with you
Passed through the hands of time
I never dreamed those hands would be mine.
