

Molly Hatchet, White Lightning

Coming into town at the speed of light
This is Franklin County you got that right
The law is on my trail...babe I gotta git
Around Rafes turn foot down to the floor
400 horses gimme more...more...more
Gotta get back to Hazzard you know I can't quit

Chorus:

White Lightning... say it with a smile
I'll be half way home accross six counties
Before you can blink an eye
White Lightning...say it with a smile
I'll be bumper to bumper passin' on the right side
Feelin' my machine man what a ride...
A hundred miles to go...almost there
Blue lights in my rear view mirror
Hell is at my back...my babys runnin' strong
Road block ahead I had to gear down
Thru Kelsys woods and eased my way around
Elvis on the radio singing my favorite song
When the weekend gets here baby
They come from near and far
Reverned with a twenty dollar bill
Holds a bible and a mason jar

Chorus:

White Lightning... say it with a smile
I'll be half way home accross six counties
Before you can blink an eye
White Lightning...say it with a smile
I'll be bumper to bumper passin' on the right side
Feelin' my power man what a ride...White Lightning!!!
Mama & Aunt Queenie get to cookin'
Everything gets right...
We'll all be at church on Sunday
Right now it's Saturday night...

Chorus:

White Lightning... say it with a smile
I'll be half way home accross six counties
Before you can blink an eye
White Lightning...say it with a smile
I'll be bumper to bumper passin' on the right side
Feelin' my machine man what a ride...
White Lightning... say it with a smile
I'll be half way home accross six counties
Before you can blink an eye
White Lightning... say it with a smile
I'll be bumper to bumper passin' on the right side
Feelin' my tension man what a ride...
White Lightning...Yes
