

Molly Johnson, Melody - Molly Johnson

Melody
(Craig Ross / Molly Johnson)

It's so easy here with you
Like a walk in the park
Just before dark
Oh it's so easy here with you
Like sun on my face
A bright summer day

You're like a melody
That follows me
And when you go I still hear music constantly
You're like a melody
That follows me
And when you go you're haunting me
You're taunting me

And summer slips to fall, yes it does
Seems no times past at all, no time at all
And summer slips to fall and then it snows
And then I watch you go, watch you go

You're like a melody
That follows me
And when you go I still hear music constantly
You're like a melody
That follows me
And when you go you're haunting me
You're taunting me

Got a feeling 'bout you
Might be nothing new
But time slips by so easily
I hardly try
So don't be sad
I won't be blue
Cause love will follow, follow you
