Molly, Punk Rock Girl

Well she's pimp She's sweet She got down on her knees She looked into my eyes saying Give it to me please

I can't believe, she's just like a disease She's Americana, I prefer Portuguese

And mom said to stay away But somewhere along the way I fell in love

I'm falling for a punk rock girl I'm falling for a punk rock girl

Well she's shit, she's whacked A pink-haired heart attack I really think she's fly But it's just so 89

A mochacheena please She'd hate the screamin' trees One too many pink squirrels I know she's just tease

And mom said to stay away But somewhere along the way I fell in love

I'm falling for a punk rock girl I'm falling for a punk rock girl I'm falling for a punk rock girl I'm falling for a punk rock girl

She knows I wait outside her door Just for her She knows I wait outide her door 'till I...

I'm falling for a punk rock girl I'm falling for a punk rock girl I'm falling for a punk rock girl
