## Moloko, Be Like You

I'm the sidekick

The mimic

Ventriloquistic

(My lips moved) and you missed it

I need to know the mystery

Of your misery

(Give me some of that) magic

(I wanna be) I wanna be tragic

Ì wish I could just Xerox

(This is the paradox)

(You're waves) You're waves (in my brain) in my brain

(We could be) We could be one and the same

(Deep) Deep and meaningful artistic endeavor

(It's plain) it's plain (disdain) disdain

Makes you look clever

Everybody wants to be like you

Ah, show me what to do

Everybody wants to feel the way you do

Me too

I must fulfill my destiny

(Feel the force) Feel the force of your fury

Cock sure, you're a genius

Give me some (Give me some), reflect your glory

(All knowing) All knowing, (all bleeding) all bleeding

(I can dig it) I can dig it, Daddio

Tell me, show me, which way to go

(I really want to know)

Everybody wants to be like you

Ah, show me what to do

Everybody wants to feel the way you do

Me too

Everybody wants to be like you

Ah, show me what to do

Everybody wants to feel the way you do

Me tóo

Everybody wants to be like you

Ah, tell me what to do

Everybody wants to feel the way you do

Take me with you

Ah, show me what to do

Me too, take me with you (ah), take me with you (ah)...
