

# Mona Ray, You're My (Billy) Idol

And its all Ive got to tell you what Im thinking about  
Like a word or soft or sweet complexion could eradicate all doubt  
And send it all away

She says, Lets go, and lets do this one more time  
If only for a moment just tonight  
And when your heart beats so does mine and I know it  
But Baby so should I, but I dont or do I?  
You know I dont believe you do

So testing, testing, one, two  
The lights are on, the stage is set, and were moving  
Oh God were moving  
Everyone is watching so dont miss your cue, girl  
Its all on you

We move until I cant feel the ground beneath my feet  
So stop, stop were running out of breath  
Weve been talking for hours and hours on end  
In circles, until the words dont mean anything at all
